

Compare this one minute test of frequency response from "Theme from Shaft" on "Scotch" low noise tape . . .

with this frequency response on new "Scotch" Special Classic Series tape. White marker bar above indicates one-third octave between 12,500 and 16,000 Hz.

Wollensak sets a new performance record in 8-track frequency response

Adding an 8-track unit to your stereo system is something you may not even be considering. Because you believe 8-track sound can't begin to compare with reel-to-reel or the finest cassette quality.

But now, the new Wollensak 8075 Dolby 8-track recorder deck is out to change your way of thinking.

Example: Compare the one minute test of frequency response on the B & K Analyzer above. On the left, we used "Scotch" low noise tape in the Wollensak 8075. On the right, new "Scotch" Brand Special Classic Series tape in the 8075 brings you higher frequency re-

sponse in the 16,000 Hz range. A frequency response never before reached in 8-track sound that equals the finest cassette quality and approaches reel-to-reel quality.

Here's how: The Wollensak 8075 features an *exclusive* Tape Selector Switch which optimizes the record equalization to take full advantage of "Scotch" Special Classic Series tape. Together with Dolby, you get increased frequency response and greater dynamic range.

By setting the Tape Selector Switch in the "Regular" position, you can also use standard 8-track tape and still get

superior frequency response.

This new Wollensak 8075 is the first 8-track recorder to bring you the Dolby Noise Reduction System.* And it even decodes FM Dolby radio broadcasts for noise-free listening.

Other features? A Digital Time Counter keeps track of the recording and playback time. Its automatic eject system protects recorded tapes from accidental erasure while recording. Handsome styling, separate horizontal level controls, large dual illuminated VU meters, fast forward control, end-of-tape sensing, record cue, single play or repeat capabilities plus other features make this the finest 8-track you can add to your system.

Nobody knows more about sound-on-tape or has more experience in tape recording than 3M Company. Find out why at your nearest Wollensak dealer. Or write: 3M, Dept. SR-74, St. Paul, MN 55101.
